

CYBER SECURITY PRO

Advanced protection
for Mac

ENJOY SAFER TECHNOLOGY™

CYBER
SECURITY PRO

Effective all-in-one internet security including personal firewall and parental control.

Protect your privacy

ESET Cyber Security Pro protects against malicious HTTP websites attempting to acquire your sensitive information – usernames, passwords, banking information or credit card details.

110M+

protected users worldwide

100+

prestigious VB100 awards

30+

years of NOD32 technology

Award-winning protection

Independent evaluators put ESET among the best in the industry, shown also by the record number of *Virus Bulletin's* VB100 awards.

Legendary antivirus technology

Multi-layered security protects you against all types of online and offline threats and prevents malware spreading to other users.

Made in the European Union

ESET values, like integrity, reliability and independence, all stem from our European roots and are safeguarded by our private ownership structure.

Be safer on the internet

Protect your Mac against malware, as well as Windows-targeted threats. Stay clear of all types of malicious code, including viruses, worms, and spyware.

Antivirus and Antispyware	Eliminates all types of threats, including viruses, worms and spyware ESET LiveGrid® technology: whitelisting of safe files based on file reputation database in the cloud
Auto-scan of Removable Media	Scans devices and media for malware immediately upon insertion Scanning options include Scan/No Action/Setup/Remember this action
Network Connections	Helps you understand what is happening on your network interfaces. It displays all connections for each process with the speed and amount of transmitted data
Web and Email Scanning	Scans HTTP websites while you browse and checks all incoming emails (POP3/IMAP) for viruses and other threats
Cross-platform Protection	Stops malware spreading from Mac to Windows endpoints and vice versa Prevents your Mac from turning into an attack platform for Windows-or Linux-targeted threats

Keep your private data safe from identity theft

Protect your online identity. Usernames, passwords and banking details are all secured. Increase the level of protection when connecting to public Wi-Fi networks.

Personal Firewall	Easily define different profiles with different settings using Firewall Manager window Choose strictness of firewall protection from three predefined profiles: Public/Home/Work Zone Allow/Block all incoming/outgoing connections of selected applications, services or port numbers Allow/Block all connections of computers on the same network, and connections to a single computer based on that computer's IP address, name or domain name Exclude any IP address from being blocked by firewall
Anti-Phishing	Protects against malicious HTTP websites attempting to acquire your sensitive information – usernames, passwords, banking information or credit card details
Removable Media Control	Lets you disable access to removable media (CD-ROM, FireWire, USB, iOS devices and others) Allows you to prevent unauthorized copying of your private data to an external device

Keep kids safer online

Show your kids only the good side of the Internet. Opt to block more than 20 categories of potentially offensive web content. Allow/block different website categories for a number of users or choose from predefined user profiles – Child, Teenager or Parent.

Parental Control	Set website categories based on allowed/blocked and whitelist/blacklist specific websites Choose from predefined profiles – Child, Teenager, Parent – and fine-tune them to fit your needs Get a full overview of: visited pages, categories, and dates and times
-------------------------	---

Enjoy the full power of your Mac

Protection that leaves more power for programs you use daily. Work, play and browse the Internet without slowdowns. Take advantage of a range of security features to stay online and unplugged longer and enjoy multimedia without pop-ups.

Install and forget or tweak away

Enjoy the familiar streamlined interface and get powerful protection with default settings. Find the settings you need and easily set up and run computer scans. You get uninterrupted protection as the program runs in the background, and only asks for your attention when necessary.

Small System Footprint	ESET Cyber Security Pro maintains high computer performance and extends the lifetime of hardware
Presentation Mode	No disruptive pop-ups during presentations, videos or other full-screen applications Pop-ups are blocked and scheduled security tasks postponed – to maximize performance and network speed
Fast Updates	ESET security updates are small and automatic, so won't noticeably affect your internet connection speed.

Settings for Advanced Users	Offers in-depth security settings to fit your needs – for example you can set up scanning time and size of scanned archives
One-click Solution	Protection status and all frequently used actions and tools are accessible from all screens In case of any security alerts, quickly find the solution in one click
Familiar Design	Enjoy a graphic interface that has been designed especially to complement the look of macOS The Tools pane view is highly intuitive and transparent, allowing for quick navigation

Free support in your language

Each license comes with free, industry-leading customer support, supplied locally in your language.

MULTIPLATFORM SOLUTION

Secure All Your Devices

Whether you run a Mac, PC or Android smartphone, tablet or TV, protect them all with ESET's highest level of Security.

Protect Your Children Online

With **ESET Parental Control for Android**, which comes as part of ESET Cyber Security Pro and covers a multiple number of kids' devices, you can help your children manage their online experiences safely – and in a child-friendly way that they will understand.

One Convenient License

A single license covers all your devices, and protection can be transferred at any time to a new device without the hassle of getting a new license.

CHOOSE THE SECURITY YOU NEED.
PROTECT 5 OR 3 DEVICES.
